The Revolution to Said to be a Certainty

(Scripps-McRae Dispatch.)  
HAVANA, Sept. 23.—Gen. Guerra is reported marching on Cienfuegos with a force of a thousand armed men to exact vengeance for the killing of his friend, Congressman Villuendas, leader of the liberal party, and five others during the election riots.  
Cuba is inflamed with rebellion.  
A battle is in prospect with rural troops.  
Throughout the provinces of the Matanzas, Santa Clara and Santiago a clasp between partisans of the Palma and Gomez factions are reported from various points and there is every reason to fear that more serious trouble is in store unless the government succeeds in preventing further collisions.  
Trainloads of rural guards are being sent to the three larger cities, Cienfuegos, Santa Clara and Matanzas in view of the threatened outbreak during the presidential election.  
The trains carry artillery, and troops are supplied with 13,000 rounds of ammunition.

THIS COLLEGE PRESIDENT THINKS IT'S  
BETTER TO HAVE CONCENTRATED WEALTH  
THAN TO HAVE NO WEALTH IN COUNTRY

(Scripps-McRae Dispatch.)  
LINCOLN, Neb., Sept. 23.—President E. Benjamin Andrews in address at the state university opening this morning defended Rockefeller and his methods. He said in part:  
"Other things being equal, it is no doubt best that the nation's wealth be owned by many. But I declare, after all, the main thing is the piling up of wealth. If little wealth exists most of us would be wretched; whereas, if the wealth is immense, all but the idle will be benefited."

FAILBANKS COMPLIMENTS HIS  
PARTY ON ACCOMPLISHMENTS

COLUMBIA, Sept. 23.—Vice President Fairbanks spoke today at the opening of the republican campaign in Ohio. He said the republican congress will readjust the tariff whenever readjustment is essential to preserve the integrity of the system. The change will not be made for the mere sake of a change, or to promote free trade.  
He admitted the railroad legislation was not accomplishing all that

was intended or all that was deemed necessary. He advocated a ship subsidy, and said the president will rush the canal work.  
He eulogized Roosevelt's work for peace and successes in domestic projects.  
The Normanna Sangerkor left at noon today for Westby where they will hold a musicale under the direction of Mr. Forseth. Mr. Peterson will assist them.

BOY BURGLARS  
ARE CAPTURED

The North Side Till-Tapping  
Mystery is Cleared  
by Arrest.

Charged with burglary in the night time two thirteen year old boys are locked up in central police station awaiting arraignment before Judge Brindley, and a till tapping mystery which has baffled Nels Simonsen for some time has been explained.  
On several nights during the past two weeks the till in the Simonsen hardware store on Mill street has been relieved of various sums of money ranging from fifty cents to a dollar or two.  
Mr. Simonsen sleeps in the back part of the store but is in the habit of taking a walk every night after he closes up. It was during these periods when the thefts were committed.  
Foot prints of some one who was barefooted were seen upon the roof near the window at the rear of the store where entrance was made and it was plainly apparent that they were those of some young person.  
Detective John Taylor discovered this, and last evening called Officer Fitzsimmons from his upper beat and stationed him in the store, where he remained after Mr. Simonsen had locked up.  
He had scarcely gone ten minutes when a young lad entered and steal-ink quietly to the till opened the drawer and reached in after the money. In the act of taking the coin Officer Fitzsimmons arrested the boy. He was found to be the Johnson boy who lives next door in the American House.  
The youth broke down and implicated a boy named Loomis, who had been with him when he took the cash on a couple of occasions.  
The Johnson boy would go up stairs to bed and when all was quiet would slip out of his bedroom window onto a shed roof, whence he obtained an entrance into the Simonsen store through an upper window. The boys will probably be sent to the industrial school.

MILITARY  
DAY HERE  
WED'SDAY

U. S. Artillery and  
Infantry Here

ESCH INVITES THE SOLDIERS

And Receives Word They  
Will Give an Exhibi-  
tion Drill.

One complete battery of United States artillery, and five full companies of infantry comprising the First battalion of the Third regiment, Wisconsin National Guard, will participate in military maneuvers in La Crosse next Wednesday afternoon and this city will have the greatest military day in its history.  
It was assured today when a telephone message from Sparta conveyed the pleasing information that officers in command of the Seventh battery of artillery, U. S. A., which has been in camp east of that city for two weeks, had agreed to stop in La Crosse on their return march to Fort Snelling and participate in maneuvers on the fair grounds Wednesday afternoon.  
It was largely through the influence of Congressman Esch that the Seventh battery so arranged its return march as to be able to stop here for half a day and give its artillery drill on the fair grounds.  
Nothing of this nature has ever been seen in La Crosse. The battery comprises 175 men and over 200 horses with cannon and all accoutrements of war, and when strung out in drill covers more ground than a regiment of infantry. Local military men say that a battery of artillery at drill is worth going miles to see.  
Then, in addition to the artillery drill a sham battle between companies of the Third regiment, consisting of Companies B and M of La Crosse, L. of Sparta and K of Tomah has been arranged.  
If L. company of Sparta can not come, the Mauston company will be secured to make up the battalion. Counting Dana's Third regiment band which will also occupy a prominent place in the day's spectacle, there will be between 450 and 500 soldiers on the field.  
The artillery will break camp at Sparta Monday morning and start on the march to La Crosse, planning to arrive here Wednesday noon. The battery will remain in La Crosse that night, camping at some spot to be chosen later and will resume the march toward Fort Snelling Thursday morning.

WOMEN HEROES IN  
CHICAGO FIRES

Panic Today During  
Blazes.

(Tribune Special Dispatch.)  
CHICAGO, Sept. 23.—Several persons were overcome and scores of others were thrown into a panic and three persons were rescued by the heroic efforts of two women in two exciting fires today.  
The most serious blaze occurred downtown in the Meyers hotel, Harrison and State streets. Forty sleeping guests were compelled to make hurried exits to the street and two persons were injured.  
The second fire occurred in Lill avenue. Mrs. Katherine Cleveland saved the lives of William Schenien and his wife after she awakened the members of her own family. Mrs. Cleveland upon awakening discovered that the rooms were full of smoke. The fire had started in a pantry and is believed to have been started by mice chewing matches.

H. F. STRYKER IS  
DIVORCED

Mrs. Eva Bennet-Stryker was this afternoon granted a divorce from her husband, Howard L. Stryker, by Judge Fruit in circuit court, on the ground of non-support. The defendant did not appear in court and no objection was made to the decree as granted.  
Mrs. Stryker is the daughter of C. E. Bennett and was married to Mr. Stryker, who is a well known singer in local churches, about three years ago. They have one child, a daughter, the custody of which is given to the mother. Mrs. Stryker was represented in court by Attorney Higbee.

TOBACCO TRUST ASSISTS CIGARETTE SMOKERS  
OF LA CROSSE TO DEFY THE NEW "ANTI" LAW

More than a thousand packages of cigarette papers were received at the local postoffice today, addressed to various young men about the city who smoke cigarettes. It is estimated there were 10,000 bunches of papers in the shipment and that every boy and youth in town who smokes will have a plentiful supply for weeks to come.  
The papers are evidently sent out by the tobacco trust, to stimulate the declining sale of cigarette tobaccos, since the adoption of the new anti-cigarette law.  
The postoffice authorities, unable to take other action, delivered the papers as addressed. It is asserted that the new law does not restrict sending cigarette papers through the mails from one state to another, owing to such restriction interfering with the interstate commerce law. The papers are sent out in view of this "loophole."

KEPT FROM  
PRISON PEN  
BY DEATH

McKinley and Puter  
In the City

JUDGE DIED AFTER TRIAL

Before They Could be Sen-  
tenced, Says Horace  
McKinley.

Death of the United States judge who heard the evidence in the cases brought by the government against Horace McKinley of La Crosse, S. A. D. Puter and others saved the defendants from fine or imprisonment, or both.  
The troubles of Mr. McKinley and Mr. Puter in connection with the charges brought against them of defrauding the government by conspiracy to secure timber land on the coast, are over. Both gentlemen are in La Crosse and were registered at the Stoddard last night.  
"Yes, I was convicted on one count," said Mr. McKinley, "of doing what every other land dealer on the coast has been engaged in for years past. But I was never sentenced, the United States judge who heard my case dying within the forty days which he was allowed to impose sentence, before he had rendered a decision in my case."  
"Mr. Puter is well out of it, too. The information he furnished the government regarding the 'big fellows,' including Senator Mitchell, gave him immunity from punishment and this also lightened my case, as well as those of others. I knew nothing about the part which Senator Mitchell had played in the alleged land frauds. It seems that it was the big fellows whom the government was after all the time."  
"The report which I have learned reached here that I married Marie Ware to prevent her testifying against me is extremely ludicrous. The case was all over when our marriage occurred in Chicago. I have not been back to Portland since February; have had nothing which demanded my attention there. My troubles are all over and were for some time previous to our marriage."

## FALL HATS ARE NOT SO EXTREME.

The fall hats are not so extreme this season. This is the comforting statement made by La Crosse milliners who have recently returned from the Milliners' convention in Chicago.

"We won't have anything extreme here this fall, though the tendency in the east is to go to extremes" said one of the local dealers to a reporter yesterday. "The hats this fall and winter will be neat and the colors in them will be the neatest we have had for a number of years. The Alice blue, which was the color of Miss Roosevelt's inaugural ball dress, will be a popular shade, also the olive greens, the pearl grays and the peacock blues, in a variety of shapes and styles.

"We moderate our styles here as the women don't dress as gay as they do in Paris, where the gay colors originate. There the peacock blue will be popular and brilliant hues will be the rule. Of course there are many American women, who with their good taste and discrimination can be trusted to choose from among the bright colors something that will become them, but many will have to be very careful.

"There are many new features in shapes. An effort will be made to keep the small hat in vogue, but it will only prove popular for street and suit wear. Being so severely staid in style and small in outlines, it gives no space for plumes and colorings. Though the picture hats are not suitable for ordinary street wear, they will be quite the proper thing for dress occasions.

"Shapes will run from close fitting walking hat to the voluminously draped picture hat. A very popular shape will be the turban, made of cloth to match the suit, fur or velvet with breast effects, a pretty shade of which is that Alice blue.

"Then we have the 'Roosevelt' hat, which is broad brimmed," said this milliner, showing a hat resembling very much the hat piece which Col. Roosevelt wore at San Juan hill. It is white with a blue band and about every other shade of the rainbow. "We have the continentals, the polo hats, the French roll backs, and many other beautiful shapes, which will be sold at up to date millinery stores."

Oscar Johnson has moved from 1533 Avon to 1316 Acon street.

## HOW TWO BEAUTIFUL WOMEN ESCAPED PELVIC CATARRH BY AID OF PE-RU-NA.

Female Weakness Is Usually Pelvic Catarrh. Pe-ru-na Cures Catarrh Wherever Located.

MRS. MABLE BRADFORD

Mrs. Mable Bradford, 13 Church street, Burlington, Vt., Secretary Whittier Oratorio Society, writes:

"Peruna is certainly a wonderful medicine for the ills of women. I have heard it spoken of in the highest praise by many, and certainly my experience is well worthy of a good word.

"I began to have severe pains across my back about a year ago, brought on by a cold, and each subsequent month brought me pain and distress.

"Your remedy was prescribed, and the way it acted upon my system was almost too good to be true. I certainly have regained my health and strength, and I no longer suffer periodical pains and extreme lassitude."—Mable Bradford.

Mrs. Lizzie Redding, 3134 B Clifton Place, St. Louis, Mo., writes:

"I found after trying many different medicines to restore me to health, that Peruna was the only thing which could be depended upon. I began taking it when I was in a decline, induced by female weakness and overwrought nerves.

"I began to feel stronger during the first week I took Peruna and my health improved daily until now I am in perfect health and enjoy life as I never did before."—Lizzie Redding.

## GIRALDO TO FEED AND ENTERTAIN FAIR WEEK

Harp music in a buffet, is the latest novelty that has made its appearance in La Crosse.

Henry Regat has installed an Electric Harp in The Giraldo. It is a mechanical device that produces harp music, and so perfect is the construction that the imitation of the human touch is exact. There is none of the twang and metallic abruptness of most music boxes; little fingers reach out and cause the strings to vibrate

with a delicacy that gives the instrument an appearance of human intelligence.

The machine has been the center of attraction for a number of days, the businessmen who patronize the place for the excellent lunches being served there, showing a keen interest.

By the way, The Giraldo is prepared to serve lunches fair week, and promises to please everybody, as heretofore. It is headquarters for hungry and thirsty people.

By ALICE W. WHEELER

The formal opening of the Y. W. C. A. took place Tuesday at its new home, the Mons Anderson place. There was a large number of callers both day and evening. A noon day meal was served under the direction of Miss Lucy Hogan and Miss Frances Sill at which eighty-nine guests were present. Miss Anna Goodland had charge of the supper arrangements at which a large number of the young men of the Y. M. C. A. lined up. Mrs. E. P. Reed, Mrs. W. R. Finch and Miss Irene Burroughs were in charge of register and gave a hearty welcome to each guest, who were all enthusiastic in their praises of the new home and its arrangement. The rooms are pretty and commodious and are fitted with every convenience and comfort. The library was an especially attractive room and was the pride and joy of its former owner, the late Mons Anderson. It is now used for a public reading room. All of the late periodicals are to be found here and the book shelves are rapidly being filled with useful and instructive volumes. Mrs. Mary Austin has opened a music studio in one of the rooms on the ground floor. It is a bright cheery room and made attractive with rugs, dainty draperies and pretty pictures. Mrs. Austin already has a number of pupils in piano lessons. On the second floor the rooms are occupied by the secretary, Miss Burroughs, the Misses Hoeft, Hall, Wilke, Meisner and Bowman. The association feel that they are now well established and feel, too, that much is due the public spirited women of the city who did such efficient work in arranging for the purchase of this delightful place. It will be a lasting monument to their energy and zeal and it is hoped their work will accomplish much good.

"One must know one's own measure and keep it in view." Just to specify. YOU know how big your store is—you know its measure: Does anyone in the city think it a smaller store than it is? The chances are that if anyone does it is because you have been careless about keeping your store's measure "in view."

You are not a "good manager" unless you are a regular reader of the store-ads, for your money will not "go" nearly so far if you are a little "rusty" on prices, and places and times to buy.

### AS TO "PUBLIC SPIRITED" JOURNALISM.

"It (the Leader-Press) permits no one to surpass it in public-spirited effort for the advantage of the community. . . . Newspapers have been so generously inclined toward such public-spirited enterprises as county, district and state fairs, that they devoted a good deal of space to the encouragement and advertisement of these exhibitions without compensation."—Leader-Press.

For a La Crosse newspaper to advertise a La Crosse fair without compensation, would be indeed generous. It would not be right for the fair association to ask it, nor would it be unreasonable for the newspaper to refuse it. It costs money to run newspapers, and fair compensation should be charged and paid.

However, when the Light Trust organs of La Crosse, forgetful of the fact that the La Crosse Interstate Fair association is just emerging from a deep, deep hole; unmindful of the circumstance that its financial fate depends largely upon the outcome of the present fair; oblivious of the fact that hard-worked men have given, and are giving, ungrudgingly their time and effort to make possible the maintenance of this valuable factor in the city's growth and advertisement without compensation—when corporation newspapers forget these things and attempt to charge a public institution double the rates for advertising that they charge regular patrons, the assertion that, "The Leader-Press (and Chronicle, we add) permits no one to surpass it in public spirited effort for the advantage of the community," it appears that the real nature of "public spiritedness" should be given to the public.

In their treatment of the La Crosse Interstate Fair, the Leader-Press and The Chronicle have been as "public spirited" as they were when, to protect a scheme to rob the public, they forgot to print the news that a majority of the stockholders of an independent lighting company had betrayed their trust and sold out the merchants of La Crosse to as domineering and greedy a public service octopus as ever made the good people of any community "step up to the captain's office and skin their weasels."

We say that these papers have asked the Fair Association to pay greater advertising rates than they regularly charge; we say that they have demanded double the amount that they charge some people; we say that they have stipulated that, unless a certain large amount of space were taken, they would charge 2½ times as much as they charge certain favored people. This sort of "public spiritedness" is responsible for the falling off in circulation that makes these "journalists" ignore the repeated (and now repeated) offer of a paper now one year and four months old, to have relative circulation checked by intelligent men of this city, the paper showing the greatest bona fide subscription to receive any reasonable sum of money as a forfeit from the losers.

It is also a fact that these papers charge various men competing in the same business, different rates for advertising; it is a further fact that these papers write the advertising for certain stores and lend their aid in competition with other stores from whom they are accepting greater rates for less service. If Jones, a clothier, gets his advertising for half what Brown, a clothier, pays; and if the advertising medium writes Jones' advertisements free of charge, how can Brown compete with Jones? Answer this, some of you merchants who are paying out your good money to papers that are straining themselves to build up your competitors at your expense.

However, "the Leader-Press, permits no one to surpass it in public spirited effort for the advantage of the community." O, gally old man, and presumptuous young society squirt! Truly, your "moxie" commonly described as the material presence of abdominal protuberance, knows no bounds. How long will the people continue to endure your depredations? O Lord, how long?

### QUIPPS & CRANKS & WANTON WILES

#### DRIFT.

The appearance of J. Pierpont Morgan on the witness stand in the insurance scandals is awaited with no more inquisitiveness as to the nature of his revelations (or evasions) than curiosity as to the brand of repartee he employs.

Is it true? They all say so! When is he going? Isn't that pretty short notice? Poor Pfid!

Looks like fair weather for the fair.

#### A WOODEN EPISODE.

Said Mistress Maple to Madam Oak, "What colors will you wear, When Summer's green is a fleeting dream, And the frost is everywhere?"

Said Madam Oak, with a little choke Of regret at the flight of time, "My Autumn gown will be sober brown; It's the style in this northern clime."

Said Mistress Maple, the gay young thing, "Purple and gold, for me; For I'm born, I guess, for the gayest dress In Wild-wood society."

Then the gossiping pair donned raiment fine, And scoffed at the old Fig Tree: "Your togs are as old as Adam and Eve, As any young sprout can see!"

But Winter heard, and he cried in wrath, "I'll punish this snobbish pair!" And he stripped them of every shred they had, And he left them naked there. —FANNY FAN.

### JUST LIFE

#### DEO-O-O TELL.

When a man drops a big bunch of money, they say  
Fast horses brought on his woe.  
We disagree with the bunch  
And harbor a hunch  
That the horses he bet on were slow.

It isn't the grandstand player who delivers the goods.

The disclosures in the New York Life remind us of stories we've read elsewhere of New York life—probably in the adventures of "Nick Carter."

Cassie and Bigelow and the rest of the grafters have to step aside for that insurance bunch.

Ryan, the New York Standard Oil millionaire in a spirit of reckless extravagance showed his philanthropy the other day by giving an orphanage a donation of \$1,000. At this rate he should soon be broke.

When the Winninger Brothers, who are playing at the theatre offer free ladies' tickets, that comes pretty near winning.

McCall will probably be called down from the throne over the city National Bank for thus tipping his mitt.

It would indeed be a wise trick of diplomacy for Teddy to give back the \$48,000, now that he's discovered. The republican party's attitude is like that of a frightened thief returning the spoils. It should win many democratic votes.

#### FOOD FOR THOUGHT.

If the resolution introduced in the city council last night to send the pamphlet council proceedings to 15 residents of each ward passes, by what twisting of the constitution, or by what code of ethics or by what system of politics will the "favored 15" be chosen in preference to the other residents of the ward? Where does the city council gain its power to thus discriminate against all but fifteen people in a ward? Will these "favored fifteen" pay the postage? And if not, why should those other taxpayers who are not "selected" for the favor be called upon to pay the postage, and by what law or precedent should they pay it?

#### NEWS NUBS.

We cannot refrain publishing the following "news" from the Oak Valley correspondent of the Osseo Recorder:

Oscar Stendahl made another call at Holmen's. What's your attraction O?

Bennie Lewis was seen going to this valley one Sunday eve. How was the sidekick B?

Somebody had an awful dream here the other night. He dreamed he met a lot of young stock and as he passed by them they all blushed.

Say Oliver, you told us that you had been to the fair, but you didn't tell of all their curious things you had in your hat.

A lie is like a cat; it never comes in a straight line; is an old saying, and I believe it's true.

Girls, when you go out riding, don't be out so late that you come back in the morning.

#### SOUTHERN WEALTH.

"There were few southern families better off in worldly possessions before the war than the Hairston family of Henry county, Virginia," said a wealthy southerner the other day. "Samuel Hairston was the wealthiest, being estimated at \$5,000,000 in 1854. He owned 1,700 slaves in his own right, and inherited 1,000 more when he married an only daughter.

For the natural increase of the slaves was about 100 a year, and he found it necessary to buy a new plantation every few years to settle them on. His landed property in Stokes alone was assessed at \$600,000. His income was often \$500,000 a year. One of his brothers, Marshall Hairston, of Henry county, owned 700 negroes. Robert Hairston of Mississippi, another brother, 1,000 negroes, and Harden Hairston, who had also moved to Mississippi, about 600 slaves. Samuel Hairston's home plantation was the most beautiful place in Virginia, I have heard old Virginians say."

### THE SPECTATOR.

Farmers who came to the city on the recent industrial excursion from Viroqua over the La Crosse and Southeastern railroad are not given enough attention in the program of speeches carried out on the steps of the court house. J. N. Wiggenson of Bloomingdale, one of Vernon county's lively rustics, thus expresses himself regarding the excursion, in the Vernon County Censor:

"Oh, well, it doesn't matter what they said in La Crosse at the court house! They spoke about the business men, but did not mention the farmers. A lot of farmers were there on the business men's excursion. I do think the farmer is about the busiest man anywhere you may find him. Come right down to it, we all look to the farmer as a support. The railroads could not exist without them. They are the producers of all that we eat or 'drink.' They are becoming one of the forward generations of today; in the future they will be more so. Our forefathers were all good men, even 'Abie' split rails. We are not going to leave the farmers out 'not by a long shock.' The sentiment today of our state and local papers is leaving out the farmer too much—law suits, divorce cases, railroad companies and all kinds of nonsense. Send some of the reporters out on the farms and get good sound sense, and healthy ones at that."

"Our county, Vernon, is getting to be the leading county of the state in the dairy business. Their production is one of the finest the year round. A letter from one of the largest cold storage houses in Chicago says the butter produced in Vernon county in July and August, is as fine as the butter produced in other counties of the state in June. It is because we have the springs, the natural grasses; it is not because we take the best of care of our cream. We can improve our cream by better care all the time. That is what we want, care all the time."

"We had a fine time at La Crosse, although there were some mistakes made by some of us who hadn't seen

so large a city. Undertaking establishments were taken for restaurants, especially where they had the Miller sign on them. Of course Gund's was all right; some called for big 'guns' and some for little 'gun.' We thought the mayor of La Crosse was a handsome man, but the mayor of Viroqua is not a comparison to him. You ladies who were spoken of on the court house steps, have no idea of a handsome man. Of course Mayor Coffland had a bad trip from Chicago—his clothes were wrinkled, had sat up all night as he could get no berth; could not expect him to be in his beauties, although when he looked over the audience it brought a smile on his face. But, Mr. Murray, why he was all smiles. Thanks to you all."

## Trade Shows a Gain Says Dun

New York, Sept. 23.—R. G. Dun & Co.'s Weekly Review of Trade says: Current trade shows a distinct gain in comparison with the same time last year; crop reports are reassuring, and evidences of continued activity are noted in almost every department of industry. Fall trade is now well under way, especially encouraging results being achieved in dry goods, millinery, foot wear and all lines of wearing apparel, while mercantile payments are unusually prompt for the season. There is a steady consumption of groceries and other staple articles of food, and in furniture, crockery and numerous household utensils the distribution is vigorous.

Manufacturing plants in the leading industries receive large orders, a heavy tonnage of iron and steel business being placed and machinery houses making very cheerful reports; foot wear shops have ample business in sight; textile mills are busy, although new contracts come forward more slowly; flour mills and saw mills have enlarged production. Failures this week numbered 206 in the United States, against 225 last year, and in Canada 34, compared with 30 a year ago.

### Lang Introduces Ordinance by Which All City Officials May be Entertained Free

Alderman Lang introduced at a meeting of the council last night an ordinance providing that city officials or aldermen wearing the official star with wives or sweethearts may be admitted free to all theatres, circuses and shows of all kinds.

Alderman Hirschheimer introduced a resolution providing for the employment of an expert landscape gardener to draw a park plan for the Interstate fair grounds. This is a sequel to an ordinance recently passed in which the council demands that the association improve the land by planting trees each year or forfeit it to the city.

Mayor Torrance, City Attorney Mahoney, Engineer Woods and three aldermen to be named later will constitute a committee to take up with the Milwaukee railroad the matter of constructing a new steel viaduct over the Rose street crossing.

The claim of Mrs. Mary Nelson for \$20 damages for loss of a stock of oranges and bananas in a flood at the public bath which inundated the booth in which she and her husband were living, was disallowed. The aldermen could not figure out where the city was liable for the pranks of the river.

Sanitary stalls will be installed in the new Third ward engine house, the board of public works being instructed to enter into a contract with the American Sanitary Stall company. The stalls will cost \$1,000.

Another bridge on the road to La Crosse will be dispensed with by filling in, the board of public works being instructed to prepare specifications.

The Elliott-Loeber company presented a claim for damages for injuries sustained by a horse which stepped through the Third street bridge over La Crosse river. The matter was referred to the finance committee.

The Merchants' Protective association will be granted permission to hold free shows in the business district free week.

**A Favored Fifteen?**

Alderman Hirschheimer introduced a resolution providing that each alderman furnish the city clerk with a list of 15 citizens in his ward to whom the official reports of the council proceedings printed in pamphlet form shall be sent through the mails. The resolution was referred to the finance committee and will be reported upon at the next meeting.

## WINONA SENDS ITS BIRDS TO LA CROSSE

Perhaps the largest shipment of birds out of Winona to a fair will be that which will be made to La Crosse on Monday of next week for the interstate fair which will be held at that place, says the Winona Republican. There will be at least sixteen cages and perhaps more. Last year the Winona birds won a number of blue ribbons as they will undoubtedly do again this year. The entry at the La Crosse fair is somewhat different than others as the association requires a paid season ticket from one who desires to make an entry.

Among those who will ship from Winona are the following, who will each ship two cages with the exception of two or three: Jacob Born, Barred Plymouth Rock; George Knopp, Golden Wyandottes; Mrs. Martin Bender, Silver Laced Wyandottes; George Lockwood and Louis Jung, Partridge Wyandottes; Mrs. Fales Woods and Felix Cysewski, White Wyandottes; Henry Blood, Black Minocas, and Henry Hess, Buff Wyandottes.

R. B. Hoyt has shipped 500 pounds of apples from our station and six carload of barley the last four days of last week for the John Gund Brewing company, says the Chasburg correspondent of the Viroqua Republican. A great trouble was the slowness with which empty cars were furnished by La Crosse & Southeastern railway. The company did not think we needed an elevator and so gave us a twenty-six by forty flat house, which was filled in one day and five men have not been able to handle it.

We have shipped 7,402 bushels during the four days and have not yet moved one-tenth of the grain tributary to our station.

Cowper wrote that "to follow foolish precedents, and to wink with both our eyes, is easier than to think!" but this is not true of modern business life, especially of advertising, in which even the best precedents are followed but a little while and then easily passed on the road; and in which to wink with either eye—at lethargy and inaction—is to invite wreck and disaster.

## HER ONLY SIN TO BE SHOWN AT THEATRE

Lincoln J. Carter's original Chicago Criterion theatre production of his own powerful drama, "Her Only Sin," comes to La Crosse on the night of Sept. 30 with afternoon matinee. This play is now in its third successful season and possibly may go out for several more before it is finally put into stock houses and leased out to reputable repertoire companies. In this story, Mr. Carter has brought all his faculties together to make it one of the strongest dramatic productions to last not only for its initial season but for many more to come. In this his judgment and foresight has proven right. From the press, public and the numerous amount of unsolicited letters received in his office all praising in the highest manner the intense interest it contains it argues well that the play will go down into memory along with "East Lynne," "Camille" and a few more of the celebrated emotional plays. Prices, 10, 20, 30 and 50c.

# SIX DIE IN POLITICAL CLASH IN CIENFUEGOS

## A REPRESENTATIVE IN CONGRESS AND CHIEF OF POLICE DIE.

### Dynamite Bombs are Found in Dead Congressman's Rooms

Havana, Sept. 23. — Official dispatches received here from Cienfuegos announced the killing of Representative in Congress Enrique Villuendas, leader of the Liberal party, and the most able orator in the lower house, and the chief of police of Cienfuegos, during a conflict between the two political parties, the Liberals and Moderates. The government advises say the police had information that with-

spread throughout Havana the Liberals and Moderates rapidly gathered in their respective clubs, and it is feared that unless the leaders give wise counsel a clash may result. A dispatch to the Associated Press from Cienfuegos says that six persons were killed and twenty-five wounded during the conflict.

#### VILLUENDAS HAD BOMBS.

#### Two Found in His Hotel Room—Troops Sent to the Scene.

Despatches to the government say that besides Representative Villuendas and Chief of Police Illance two policemen were killed, and several policemen and civilians wounded. Rural guards are around the entire block in which the Hotel Suizo, the scene of the affair, is situated. One telegram says that Villuendas fired the shot which killed the chief of police, while, according to another telegram, the shot was fired by Jose Fernandez, a Liberal, who has been arrested. A search of the hotel revealed two dynamite bombs in the room occupied by Villuendas. The police in searching the hotel were carrying out the order of a judge who was informed that explosives were hidden there.

The government has received a telegram from Senator Frias, asking it to send reinforcements at once. The telegram says: "While in Cienfuegos at present the forces are keeping order every precaution is needed, as there is danger of assault. I recommend that the authorities prevent the entrance into Cienfuegos of probable trouble-makers who are liable to invade the city. There are fears of dynamite bomb throwing."

Acting on the advice of Senator Frias the government has sent a train of five cars loaded with rural guards, the largest number of whom is destined for Cienfuegos, while the others will be distributed in Mantanzas and Santa Clara, where advances received by the government indicate serious trouble may occur at any time. The train also carried artillery, and the troops are supplied with 13,000 rounds of ammunition.

The feeling in Havana is most intense. The Liberals are bitterly denouncing the government, saying they have received no advice from Cienfuegos because the government will not permit the use of either the government telegraph lines or of the cable lines.

#### Further Trouble Is Expected.

Intense excitement prevails at Cienfuegos and Havana. The government authorities fear the result which the affair may have upon the election of members of the election boards, which is being held today. As the news

PRESIDENT PALMA OF CUBA.

In the hotel in which Villuendas resided a quantity of arms had been deposited, and they went to the hotel to investigate the matter. As the police ascended the stairs they were met by a party of Liberals, which fired on them, killing Chief of Police Illance. The police returned the fire, killing Villuendas and wounding several others.

## TAKEN TO HEAVEN AND HELL BY GOD THAT SHE MIGHT TEACH THE WORLD

DES MOINES, Ia., Sept. 23.—To die, to be received in heaven and hell, to be resurrected and told by God to preach what she saw to the people here below, are the strange experiences related by Mrs. Lottie Clark, who a few weeks ago was restored to health by a miracle, while on her death bed.

From her visit she claims to have learned that the world will soon come to an end, the water turn to oil, and the whole set afire.

At first few people believed even the story of the woman's remarkable recovery, after she had lain in a death stupor for five days and physicians had given her up. But now the members of the Presbyterian mission have been convinced not only of the miracle of her recovery but also of the truth of her wanderings through heaven and hell. Mrs. Clark has never read the bible, but she told of things which the bible proclaimed, and so confident now are the neighbors that she has been called upon to teach them that she has been invited to preach at the south-east Eighth street Presbyterian church next Sunday.

#### Describes Her Trip.

"I am positive that I saw a vision accorded to few here below," said Mrs. Clark. "It is daily becoming clearer, and a few nights ago I was compelled by some mysterious power to preach what I have seen while dead."

"Heaven is a wonderful place," said Mrs. Clark. "I crossed the Black river before reaching the gate at which stood St. Peter."

"I saw and talked with God," said Mrs. Clark, "and after seeing both heaven and hell was ordered to return below and preach what I have seen. Heaven is divided into two parts, the first the most beautiful. Back from the gate are three thrones. In the center sat God, on the right

was Jesus, while to the left is Gabriel. He had his big trumpet. From the throne I passed down a hill, covered with the most beautiful grass. At the foot of this was a magnificent park, where people were lying about. Here were fountains, the water sparkling like diamonds. In a lake nearby were gold fish of inconceivable beauty. Through this lake the people walked without difficulty, the waters apparently parting as they stepped upon them. Here grew fruit of every description, with splendid forest and water of the ocean near by. People of different nations seemed to have separate places, and in another part were cannibals and heathen. I also saw queer looking people who seemed to come out of the ground.

"In the second part of heaven was a beach, which appeared cool and inviting, and people spent their time walking along it.

"Hell is a horrible place, but not at all like it is usually pictured. Below a hill is a sandy beach, but the sand is red hot and the water which laps the shore is boiling. The people there have their faces drawn up in horrible agony and their hands are clasped as in an awful misery. I shudder even now when I think of it.

"In the first part of heaven the people are all attired in biblical white, while in the second they wear blue robes with golden stars.

"I had no guide through the journey, but it seemed as if piece by piece these things were shown to me.

"I was told also during my vision that the end of the world was not far distant. The exact time of the millennium was not told to me, but it will be soon, I am sure, and the people here below had better get ready for it.

"The way the end will come was shown to me as in the revelation. The grass and leaves will wither up, while the water turns to oil and all will burn together."

## ESCH PLEADS FOR THE BLOCK SYSTEM

Congressman J. J. Esch makes a universal plea for the establishment of the block system in the conduct of railroads, in the October number of the American Illustrated Magazine. He cites the increasing rate of railroad fatalities and declares the block system would greatly lessen the mortality statistics of railroads if legislation forced the railroads to install it. Mr. Esch says in part:

"The essence of the block system is to secure and maintain between trains a space interval of length to prevent collisions. The present method of operation on most of our roads aims to secure at stations only a time interval. You cannot eliminate the human factor, which enters so largely into all railroad accidents, but you can minimize it by the block system. You can minimize it to the last point by automatic block signals. When trains are run by time tables and dispatchers' orders, the dispatcher himself may issue a wrong order, or the trainmen may misread or forget the order, or someone may sleep at his post. The manual block system where the signals are operated as directed by telegraph is, it is true, still subject, though in much less degree, to the chain of human error, but the automatic system can fail only when trainmen ignore the signals, or the mechanism fails, and when it fails, most systems put the signals to 'danger,' and delay, not disaster, as the usual result.

"If this system saves life and property, why should safety be longer dependent upon the whim, prejudice or selfishness of boards of directors?"

"Managers and superintendents are not always responsible for delay in adopting the most modern and efficient equipment upon their respective lines. Often their recommendations are unheeded by directorates bent on increasing their dividends and willing to run risks.

"That the cost is not prohibitive is shown by the fact that some roads with 'far flung' but thin traffic lines have installed the telegraphic block system, and have found the service so satisfactory that they advertise the fact as an inducement to increase their passenger trade. The thinner the traffic the less the number of

blocks required to be established. On such roads the regular stations serve as block stations and the agent attends to the signals in addition to his other duties. In order to avoid delay in the passage of trains from station to station, it may become necessary to add new signal stations and operators, but even here, if fewer trains are run by night than by day, night operators may be dispensed with.

"The universal use of the block system in Great Britain and voluntary adoption years ago by some of the leading roads in the United States, is conclusive proof of its efficiency. No road that has given it a fair trial has abandoned it, and long lines with small traffic have not found its first cost and maintenance prohibitive. Its failures, few as they have been, were due more to 'human factor' than to defective mechanism. As with every other device, dependent upon man's co-operation, mistakes will happen unless the man is subject to discipline and held to strict accountability. The proposed bill does not provide rules of operation or prescribe standards of efficiency. These may come through a gradual evolution. Let it suffice for the present time that congress require in the interest of the public welfare a system which the railroads themselves have shown to be safe and feasible."

## BOY INHALES SANDBURR

The son of Mr. and Mrs. Paul Zilla of Independence, is in a hospital at Winona suffering from a most peculiar accident. Last Monday he was playing near his home and picked up a sand burr. When holding it near his mouth he drew in a deep breath, which drew the burr into his mouth. The small ball of thistles lodged in his throat, from where it could not be removed by the lad. The parents, not realizing the seriousness of the accident, waited until Wednesday before consulting a physician, when the irritation had evidently started a growth in the throat. The boy is in a serious condition.

The seven year old son of Mr. and Mrs. Peter Johnson of Half Way Creek is ill with appendicitis.

## LEAGUE BASEBALL AND ATHLETICS BY PLAYERS

A team headed by the famous American association player "Davy" Jones, will meet the La Crosse league baseball aggregation on the La Crosse street grounds tomorrow afternoon. Jones promises to bring with him from Tomah a bunch of players that will make the locals go some and a good game is promised.

After the game a program of athletic stunts will be pulled off for the benefit of the fans. "Scrappy" Jones and Kahill will run a hundred yards, Vought and Bond will compete in a long distance throw, Clark and Ross Jones will race around bases and there will be other contests. Inasmuch as this may be the last game of the season there will in all probability be a large attendance tomorrow afternoon.

## TUESDAY KEEFE DAY AT THE FAIR

Tuesday is Keefe College day at the Interstate fair.

As a result of the courtesy of the management in thus setting aside a day in honor of La Crosse's well known commercial college, the college will be closed to permit its pupils to spend the day at the fair grounds.

The fair this year is to be the best in history, and among the things which are being advanced by the management above all others is full recognition of commercial institutions of the city. In setting aside Tuesday as Keefe College day the managers of the fair simply show their recognition of La Crosse's excellent business college.

As the enrollment at the college has been especially large this fall owing to the widespread reputation of success the institution has attained at home and abroad, and as a result there will be a very large delegation of Keefe College students at the grounds Tuesday.

Tuesday is to be one of the biggest days of the week and it is expected the attendance will reach many thousands.

## METHODS OF SYNDICATE DEALS IN EQUITABLE ARE AMAZING

### Investigation Brings Out Letter From Cleveland.

New York, Sept. 23.—Syndicate operations of the Equitable Life Assurance society were taken up by the insurance investigating committee and consumed the entire afternoon session. Henry R. Winthrop, assistant secretary and financial manager of that society, was called to the stand immediately after the recess, and presented and swore to a record of syndicate participations of his company, also to a record of sales and purchases of securities for the past five years. He detailed as far as he was able the transactions of the syndicate of "J. H. Hyde and associates" and took memoranda of all information he was unable to supply, which is to be presented at a later date.

#### Union Pacific Syndicate.

The participation of the Equitable society in the Union Pacific syndicate was taken in the name of James H. Hyde. Hughes asked by what authority the society assumed responsibilities and profit standing in his name. Winthrop produced the proceedings of the finance committee in July, 1905, at which the chairman reported that he had received a written assignment of J. H. Hyde's interest in that syndicate. "Do I understand that until July, 1905, there had been no written assignment of these interests?" asked Hughes. "There had never been."

#### No Record of the Transaction.

"And there had been payment of \$1,070,000 by the society in that syndicate?" "Yes."

"Before what committee was there any record of this transaction?" "There was none." There was no specific mention of the Union Pacific syndicate in the executive committee's minutes. Winthrop found only a statement that money has been paid out. The syndicate has not been closed yet. "Why did the society take the stock?" Hughes asked. Winthrop said there was a letter to J. H. Hyde from Kuhn, Loeb & Co., stating that the condition of his participation in the syndicate was that the stock should be held during the life of the syndi-

cate. "When these shares were paid for to whom was the money paid?" "The ledger does not show."

#### LETTER FROM CLEVELAND

He Invites Aid and Advice—Agency System Is Probed.

Just before Winthrop was examined Hughes read a long letter from Grover Cleveland, who is a trustee, for the policyholders in the Equitable under the Thomas F. Ryan trust agreement. The letter was offered in evidence. Cleveland detailed the progress of the trustees in mutualizing the company and said: "The obstacles that lie in the path of the proposed mutualization are so inherent that even with the greatest study and care they cannot be easily overcome." In conclusion Cleveland said: "In common with all others who desire the best conditions in this important field of business, where people have so much at stake, the trustees acting for the policyholders of the Equitable society will gladly welcome any aid in their work which may result from the labors of your committee."

At the morning session Thomas A. Buckner, vice president of the New York Life Insurance company, described the agency system of the company and the method of paying bonuses. A "Nylie" system inaugurated by this company, separating the agents who create business into grades according to term of service, was explained, and these bonuses Buckner testified were charged to renewal premiums. Monies received by agents from "Nylie" Buckner said, were in addition to the regular agents' commissions.

Witness said, when asked how expensive such a system might be, that the total payments to "Nylie" members aggregated less than 1 per cent. of the total premiums. Buckner was unable to supply a considerable amount of information desired, but will do so at a later period. Hughes asked for full statements of the policies written in the United States and Canada, also separate statements relating to foreign countries, showing premiums and commissions paid, that it might be ascertained how much, if any, the business of the New York Life insurance was being extended in the foreign field at the expense of the policyholder in the United States. The committee adjourned until next Wednesday.

had done. Ford then became a raving maniac, talking and numbing about his deed.

When the fire had burned itself out the charred body of Mrs. Ford was found in the family room, and those of the three children—Earnest and Everett, aged 12 and 14, and Ruby, aged 8—were found in a room adjoining. It is believed Ford murdered the wife and children while they slept and then applied the torch after having bound them to make sure that they could not escape had he failed to kill them.

### MISS ROOSEVELT GUESR OF EMPRESS

Seoul, Sept. 23.—Miss Roosevelt, and the ladies of her party attended a women's luncheon at the palace. On the emperor's consort, who was hostess, proposed a toast to Miss Roosevelt. The luncheon was unique for the reason that it was the first time in the history of the country that the ladies of the palace entertained foreigners. Mrs. Bunkers and Mrs. Underwood, missionaries, acted as interpreters.

United States Minister Morgan and British minister Jordan held a reception in honor of Miss Roosevelt, to whom were presented the members of the Korean cabinet, the diplomatic corps, General Hasegawa, commander of the Japanese troops in Korea, and his staff, leading Korean officials and prominent foreign residents.

### Cruel to Miss "81" Turley

Mexico, Mo., Sept. 23. — A deputy United States marshal from St. Louis has arrested Miss Dixie Tuttle, aged 23, the daughter of Thomas Tuttle, reputed one of the wealthiest farmers in Audrain county, on the charge of having sent improper letters and postal cards through the mails. The letters and postals concerned, signed "Charlie," violently attacked Miss Eighty-One Turley, a school teacher.

After an investigation covering six months the postal authorities arrested Miss Tuttle charging her with sending them. She protests her innocence.

If you can afford to pay a few dollars more for a thing, now and then, than is necessary, then you can afford to overlook the ads, now and then.

### LABOR UNION VIOLATED COURT'S INJUNCTION.

Wilkes-Barre, Pa., Sept. 23.—Judge Ferris has sentenced the Wyoming Valley District Trades council to pay a fine of \$500 and John J. Casey, business agent for the council to pay \$250. Daniel Post and Peter Kosar, organizers for the council, stand committed until the fines are paid. Counsel for the defendants took an appeal and will go before Judge Smith of the superior court at Scranton and file the appeal.

The trades council and Casey, Kosar and Post were adjudged guilty by the court Monday of violating an injunction granted some time ago in which the defendants were restrained from interfering with the business of J. E. Patterson & Co., lumber dealers of this city.

### JAPAN WANTS MORE WAR WITH RUSSIA

Tokio, Sept. 23.—More than forty direct memorials from different associations and individuals condemning the peace treaty and asking that it be not ratified, have been received by the throne. Among them is an address signed by six professors of the Imperial university, one of whom was recently placed on the retired list owing to his strongly worded anti-peace theses.

This memorial strongly urges the necessity of refusing to ratify the peace treaty and condemns it as entirely annulling the purpose of the war as set forth in the declaration of hostilities. The treaty is deemed to be "pregnant with elements of humiliation and future danger to the national interests."

### THE MANIACS DEED

Vevay, Ind., Sept. 23. — George Ford, a farmer living eight miles from here, bound his wife, two sons, and a daughter in his house and then set fire to the structure. When the neighbors, attracted by the blaze, ran to the house, fire was coming from every part of it. Ford was coming from the house as his neighbors arrived. In an incoherent manner he told what he

# YOUTH SAVED TWO FISHERMEN.

The two fishermen who were thrown into the Mississippi at Dubuque while running their line a few days ago owe their existence to Richard Miller, a youth of 15 years. The lad resides with his parents on a bluff overlooking the river a mile below town. He was at work near his home when he saw the two men clinging to the upturned boat and frantically shouting for help. He ran to the river's edge, and knowing the location of a flat boat, secured it and set out on an exciting chase to catch up with the drowning ones who by this time had floated several hundred feet down the river with the current. On coming up with the men one of them attempted, in his frantic desire to escape a watery grave, grabbed the side of the boat and almost upturned it. The lad was familiar with incidents of this kind and instead of allowing the men to catch hold of the boat reached an oar to either of them which they grasped. They were rested in this manner and after instructing them to catch hold of the boat at the same time, he allowed one of them to move around to the stern of the craft and helped him in. The other was rescued in a similar manner and when taken to the shore they were so weak from their thrilling experience that they were unable to walk.

# THE HEILEMAN HEADQUARTERS FOR LUNCH AND GOOD MUSIC

The Heileman will feed the fair crowds. That has been determined upon, and Mr. Hettinger has prepared the bill of fare.

Anticipating that, in the crowds of next week, many people would find it difficult to procure suitable meals, Mr. Hettinger has arranged to put up an enticing lunch. It is by card, so that one may order only what one wants. It is planned to be an exceptionally tasty and substantial lunch.

That it will be largely patronized is certain, for there is no prettier place in La Crosse than The Heileman.

The pleasant surroundings will be enhanced by the presence of Bove Bros. & Co.'s Italian string band. This Chicago band has been brought to La Crosse to dispense music for the entertainment of the patrons of Mr.

Hettinger's place.

With comfort, easy seats, good food and good cheer, finest music and an air of congeniality, there will be no place like The Heileman during fair week.

# GOVERNOR WALLOPS OUR PRECIOUS TEDDY.

ST. PAUL, Minn., Sept. 23.—In an address on "Representative Government," Gov. La Follette of Wisconsin made this reference to the president and congress:

"Roosevelt, in his message in 1901 said that all shippers should be treated

alike, and that for existing evils there should be a speedy remedy. That was in 1901. Shippers and their associations have been asking for relief ever since, but nothing has been done. Do you think we have representative government at Washington?

"The men who corrupt the government are not the masses, but the men who made their millions in violation of the statutes of the government. They have practically got hold of the legislative departments of the government."

"Whilst the mind is in a state of uncertainty, the smallest impulse will direct it to either side." With the shopper the ad. that is a little better than the others acts as this "smallest impulse," and decides as to which of the stores she shall visit.
